

If you experience any
of these symptoms,

**GO TO THE
EMERGENCY
DEPARTMENT
OR CALL 911.**

Chest Pressure or Pain

Severe Head Injury

Trouble Breathing

Heavy Bleeding

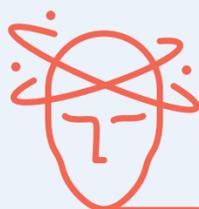

Severe Vomiting or Abdominal Pain

Sudden Blurry Vision

Broken Bone or Deep Wound

Dizziness or Loss of Consciousness

Emergency Department measures being taken to keep patients and staff safe:

- Emergency patients are separated from patients with Covid-like symptoms.
- Patients with Covid-like symptoms are placed in an isolated area set up especially for coronavirus patients.
- In the waiting area, we encourage:
 - social distancing
 - hand hygiene
 - wearing masks
- All visitors are discouraged from accompanying patients beyond the waiting area.
- No visitors are allowed in the respiratory/COVID cohort unit.
